Experience

Graduate Researcher and Teaching Assistant   *Ottawa, ON, Canada*
CARLETON UNIVERSITY   *Sept 2018 - April 2020*
- Performed teaching assistant duties for the *Introduction to Database Design* and *Distributed Computing* courses.
- Worked on my Master's thesis titled *Cross-Platform Software Developer Expertise Learning* in Software Analytics lab.
- My thesis' main application is **recruiting and talent search** by determining candidate expertise in **data-driven** ways.

Data Scientist Intern   *Ottawa, ON, Canada*
NATIONAL RESEARCH COUNCIL CANADA   *May 2019 - August 2019*
- I worked in NRC's Data Analytics Centre, where I completed a 4-month contract for a government client.
- The project involved various time series analysis of textual data using Bayesian change-point detection algorithms.
- Delivered an internal report, presented our findings, shipped source code, analysis results and demo to the client.

Undergraduate Researcher   *Kelowna, B.C, Canada*
UNIVERSITY OF BRITISH COLUMBIA - OKANAGAN   *May 2017 - August 2017*
- Conducted research on word embeddings applied in feature-based opinion mining, and presented findings to UBC.
- Designed automated detection of opinions from reviews about certain product features using machine learning.

Undergraduate Teaching Assistant   *Kelowna, B.C, Canada*
UNIVERSITY OF BRITISH COLUMBIA - OKANAGAN   *Sept 2015 - April 2018*
- I helped hundreds of students apply concepts taught in lectures via hands-on programming labs. I graded assignments, midterms, and projects. Courses taught: Intro to Java I and II, Discrete Structures, and Machine Architecture.
